EDUCATION

2022-2026

**BLDEA COLLEGE OF ENGINEERING
AND TECHNOLOGY, VIJAYAPUR**

- B.E - CSE(Artificial Intelligence and Machine Learning Engineering)
- GPA: 7.8 / 10.0(current)

2019-2021

PUC CLE PU COLLEGE CHIKODI

- Percentage-50.00%

2018-2019

**C.T.E Society's INTERNATIONAL
PUBLIC CBSE SCHOOL CHIKODI
,SSLC**

- Percentage-51.00%

KEY SKILLS

- Python (Pandas, NumPy, Scikit-learn)
- Data Visualization (Power BI, Matplotlib, Seaborn)
- SQL (Data Querying & Joins)
- Analytical tool:- power Bi
- Developer tools :- VS Code,Google Colab

SOFT SKILLS

- Project Management
- Teamwork
- Time Management
- Leadership
- Effective Communication

LANGUAGES

- English
- Hindi
- Kannada

PROFILE

Motivated and detail-oriented Data Analyst with a strong foundation in Artificial Intelligence and Machine Learning. Skilled in data analysis, visualization, and statistical modeling. Proficient in Python, SQL, and data visualization tools. Adept at identifying trends, creating dashboards, and drawing actionable insights from data. Strong analytical, problem-solving, and communication skills. Passionate about leveraging analytical skills to extract insights, optimize processes, and drive data-driven decision-making. Adept at problem-solving and eager to apply technical expertise in a dynamic internship role.

PROJECTS

WhatsApp chat analyzer

2024-2025

Natural language processing(NLP)

- The WhatsApp Chat Analyzer is a powerful web application designed to extract meaningful insights from WhatsApp chat data
- Streamlit as web interface
- python Libraries- matplotlib, seaborn, pandas, URL extract ,word cloud.

Voxsketch : "where voice meets vision"

2025-2026

Final year project

- Building a forensic AI tool that generates suspect sketches from eyewitness voice descriptions. The system captures spoken inputs, uses speech-to-text conversion, extracts facial features using NLP, and dynamically renders the sketch in real-time.

Personal budget and finance management

2023-2024

Power Bi project

- Developed a personal finance dashboard to analyse spending patterns , saving patterns and net worth
- Helps to keep a track of your expenses

Building an AI agent

2025

(currently working)

- Built an AI agent with llama3.3 and Agno (formerly PhiData) framework which is a finance agent that will compare two stocks in terms of analyst recommendations and company fundamentals. built a team of agents
- where the first agent will be a web search agent. The second one will be a finance agent and a team lead agent will coordinate with these two agents to accomplish certain tasks.

CERTIFICATION

- NXT wave -building own generative AI model participated in
- IDEATHON at shrishti foundation: developed a prototype called "AGRIGENIUS" which provides subsidy to farmers and buy farming related equipments.
